Edition: Eight

Dear Resident,

We hope this letter finds you well.

This is the eighth edition of our project community newsletter for the new development off Brickyard Lane, Melton, North Ferriby. We believe it is important to keep our neighbours informed about our activities to ensure transparency and minimise any inconvenience caused. Your thoughts and questions are valuable to us, so please feel free to share your feedback using the project contact details provided at the end of this newsletter.

This edition of the newsletter we will cover the following.

- Progress Update & Photos
- Construction Activity Lookahead

Progress Update

We have implemented all necessary measures to ensure that the construction work is conducted efficiently and safely, in full compliance with local regulations and guidelines. During this time, there may be temporary disruptions in the area, such as increased noise, dust, and occasional traffic congestion. However, we want to assure you that we will do our utmost to minimise any inconvenience to you and other residents.

To ensure safety, we have engaged a professional construction team with experience in similar projects. They will take all necessary precautions to protect both the workers and the surrounding environment. Additionally, we have coordinated with the relevant authorities to secure all required permits and approvals.

Building the Future Together

	<h2>Community Liaison Letter</h2>			No.: TSL-ESG-SOC-105
				Period: October2024
				Date: 01/10/2024
Document Type: Communication	Project: DSA2 Hull	Client: Amazon	Contractor: TSL	Doc Owner: TSL Sustainability Lead

Our recent activities include.

- The superstructure phase of the project is progressing well and nearing completion, with active engagement key stakeholders and the Local Council through our Monthly Community Liaison Meetings.
- All below-ground service ducts and drainage are nearing completion, with the installation of concrete yard continuing along the south and east elevations. The acoustic fence line is nearing completion alongside the c space corridor.
- Structural steel works are completed for the main building footprint with progress to the main office steel, foll by the installation of the metal decking.
- Roofing and cladding are progressing well and remain on schedule, with glazing work well underway with the elevation complete and installations progressing along the North, East and South elevations.

Construction Activities Lookahead

- Docks Installation
- Internal concrete slabs to ground level and upper floors
- Internal sprinkler system
- First Fix High Level MEP services
- Internal walling systems

ESG Progress

In September TSL met with HEY (Hull and East Yorkshire) Local Enterprise Partnership representatives to review opportunities in the community. HEY can connect businesses with local opportunities particularly covering employment, careers and skill development. Following the meeting TSL have expressed interest in running a teacher training day onsite to demonstrate how education translates into professional careers. Over October TSL will be attending more events coordinated through the LEP, hopefully identifying other opportunities to support the community.

Contact Us

TSL is committed to keeping all residents informed about the progress of the DSA2 ARS Amazon Project build. We kindly ask for your understanding and cooperation during the construction period. If you have any concerns or specific needs related to the construction activities, such as timing constraints or access requirements, please feel free to reach out to us. We will do our best to accommodate your needs and address any issues that may arise.

If you have any questions in the coming months, please don't hesitate to contact the project team at project.hull@tslprojects.com.

We greatly value our relationship with our neighbours and are committed to maintaining open lines of communication. We will provide regular updates on the progress of the construction project and inform you of any significant developments that may impact the neighbourhood.

We sincerely appreciate your understanding and support during this phase of construction. We believe the outcome of this project will have a positive impact on the community, and we are committed to minimising any inconveniences as much as possible.

Thank you for your attention, and please don't hesitate to reach out to us if you have any questions or concerns.

Best regards,

Julian Bradshaw
Project Director
