

New Bus Service 150

Thank you to those residents that completed the bus survey. We are delighted to confirm that a new bus service, the **150**, will commence as a trial on Tuesday 6th July to run on **Tuesdays and Thursdays** until the end of March 2022, when the passenger numbers will be reviewed. The service commences on Ferriby High Road to do a loop of the village via Church Road, New Walk and Corby Park before heading to the Sandpiper in Melton.

It returns to the village along Melton Rd/High Street to go up Swanland Hill and West Leys Road. The service travels via Swanland Pond to Hessele Square and on to Sainsbury's. It returns via Hessele Square and back along Ferriby High Road. There would be four loops of the route each day commencing at **9.30am, 10.30am, 11.30am, 1.15pm**. The 11.30am loop allows time for the driver to have a lunch break. There will also be a **2.15pm** departure from North Ferriby but it will terminate at Swanland Pond. Please check the details before you commence your journey just in case of changes.

Post Office@The Duke

We have been working hard with the Post Office after residents expressed their concerns about no facility in the village. An outreach service is now being provided at The Duke of Cumberland pub on Mondays, 9.30am – 12.30pm.

Please use the rear entrance to the function room through the side gate, which is accessible for wheelchairs, buggies etc. Please support it or we lose it!

Coronation Gardens

The Parish Council needs to undertake repair work to the wall around Coronation Gardens due to several significant cracks having recently appeared. Unfortunately, the cause of some of the damage is from the Yew tree and Holly tree in the southern corner that are growing too close to the wall, and these trees will have to be removed in order to carry out the repairs. The aim is for this work to be done during the school summer holidays to minimise the disruption.

GP's Surgery at the Village Hall

The Parish Council has made representations to the Hessele Grange Medical Practice against the proposed closure and will inform residents as we hear more.

Men in Sheds Update

After positive feedback at an initial informal meeting a follow up meeting is arranged (Covid Permitting) for **Monday 28th June at 2pm** at the Cricket Pavilion.

Hopefully the weather will be good to allow the get together to be outside – maybe bring a chair? Any apologies for absence or for more detail please contact Cllr Phil Blogg mail blogg@blogg.karoo.co.uk tel. **631 392**

Plot E Melton Fields

The Parish Council has commissioned several images of the proposed distribution and fulfilment centre based on the submitted planning documents by Wykeland.

These have been produced by a nationally respected landscape consultancy and we believe are more realistic than those produced by the developer and showing on the ERYC planning website on 5th March.

They will be uploaded to the planning website by the end of this month but we wanted to share these views with residents before doing so.

The successful challenge by the parish council on the lack of an Environmental Impact Assessment means that the application is unlikely to go to Planning Committee before August, but is more likely on September 9th.

It is not too late to make your views known either online at newplanningaccess.eastriding.gov.uk or by email to planning@eastriding.gov.uk. Use the reference 20/03555/STPLF

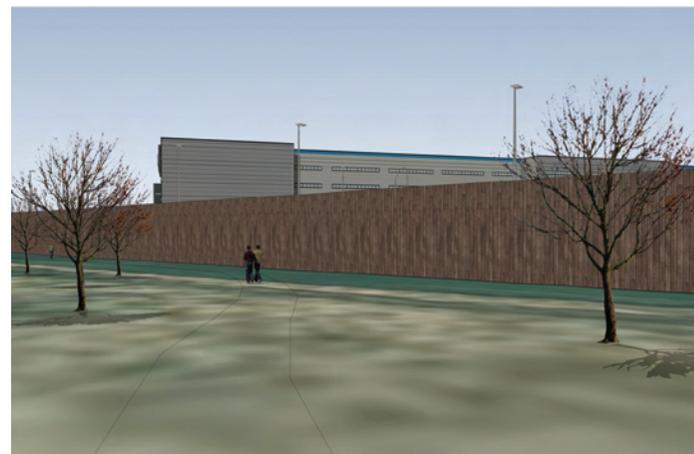

The images and photos will be available on the PC website from 21st June

The proposed facility from same view point

View from the edge of Long Plantation showing 5m high acoustic fence

The three night time views below were commissioned by Save Ferriby 2020 at almost identical facilities elsewhere to demonstrate the impact of the proposed lighting scheme. The developer, Wykeland, has not provided any night time images in its submitted documents.

Refresh of the East Riding Local Development Plan

Planning is a matter of high importance for our residents at present and what is contained in the Local Development Plan is the basis on which future decisions will be made. The plan is currently being refreshed and is now out for public consultation, so please make every effort to consider it and make your views known. Hard copies are available at the library but all documents are available online at www.eastriding.gov.uk/localplanupdate.

The key changes affecting North Ferriby are:

FER-A - Godfrey Robinson Home, no longer included for additional housing.

FER-D – Grange Lane site, no longer included for additional housing.

FER-B – site next to the school on Ferriby High Road increased from 113 homes to 141 to compensate for the removal of FER-A and FER-D. There is no longer a requirement for FER-B to provide outdoor sports facilities and the Parish Council is objecting to the loss of the much needed pitch space

Melton E. There is positive news about land to the west of North Ferriby. There is now a requirement that new development must not adversely affect the amenity of neighbouring residential areas in terms of noise and pollution, and it should protect the character and ecological value of the plantation that runs along the eastern boundary of the site. However, the public open space to the west of the Long Plantation is still recorded as employment land and the PC will be asking that the plan be amended accordingly.

Comments must be submitted by 6th August. Our initial considerations will be on the PC website before submission.

Village Hall News

Ferriby Screen has returned. Full details on our website: www.ferribyvillagehall.org.uk and on social media @FerribyVillageHall

Anne Turner Allotments

The tenants of the Anne Turner Memorial Allotments are looking forward to the arrival of a new storage shed later this year.

Ferriby Open Gardens

It has been decided that Open Gardens will not go ahead this year.

However, it will go ahead in 2022 and new gardens are required. Contact the school on **631 200**

The present shed was erected in the 1960's and is now in a very poor condition. The new building should be in place by the autumn.

It has been funded by a wind farm grant, a Co-op community grant and a grant from the developers Tilbury Douglas Construction who will help with its positioning.
