44. **PUBLIC FORUM** – There was no public speaking
41. **WARD COUNCILLOR’S REPORT** – Ward Cllr Abraham reported that the fire that took place at Transwaste on 13 July was under investigation by the EA. It was also noted that the bid for new CCTV on the Melton underpass had been submitted by Welton PC, but that the PCC fund was heavily oversubscribed. Ward Cllr Abraham had also had a meeting with the Director of Economic Regeneration who had commented that the questionnaire regarding the open space was of value and that Wykeland will be consulting on the design. It was noted that Wykeland had issued a Melton West Community Newsletter which included the latest design for the open space, and it was agreed that this would be reviewed in detail by the Plot E working group and any action delegated to the Planning Committee. Finally, Ward Cllr Abraham reported that the feasibility study for the Melton Station which had been completed in 2019 showed a cost benefit ratio in favour of development but that it needed to be reviewed to take account of the post pandemic change to working practices. Also that no funding had been identified for a new station and there was no target date for delivery.
42. **CLERK’S REPORT** - The Clerk gave the Council a report of residents’ correspondence for the month and actions taken. It was also noted that ERYC have granted permission for a grit bin to be installed on Woodgates Mount and signs are being made for the Riverside Walkway. The next Transwaste Community Liaison Group meeting is scheduled for 27 July and since neither Ward Cllr Abraham nor the Clerk are available it was agreed that Cllr M.Abraham would attend. It was agreed that the clerk would review the available options for producing and printing the newsletter as prices were increasing. Finally it was noted that Margaret Hyland, who had served on the Parish Council continuously from 1973 to 2019, had sadly passed way. It was agreed that a condolence card would be sent to her family.

- 45.3. **Station Road** – Following correspondence about the safety of this junction, it was agreed that the advice given by ERYC would be followed and therefore a mirror should not be installed at the junction.
- 45.4. **Telephone and Internet supply** – Following the increase in supply costs for the copper-based internet supply, it was agreed that hardware would be purchased to enable the Clerk to use the existing lightstream internet at their property and the KCOM contract for the Council be switched to telephone only.
- 45.5. **Corby Park junction** – A discussion was had about the adequacy of the proposed yellow lines at the Corby Park junction.
