| 37.    | It was <b>Resolved</b> to pass the motion requesting that ERYC explain the steps that will be taken to assess the cumulative aggregate impact on neighbouring communities' amenity of past, present and potential future developments on the Transwaste site and Melton Fields, especially, but not restricted to, that of noise, light pollution, emissions and traffic volumes, and to ensure that this is taken fully into consideration when making decisions on individual planning applications in this area. Proposed by Councillor Swindin, |                                             |                                                                                             |  |  |  |  |
